CONTENTS

25 YEARS OF INNOVATION

1984 - 2009

Since the beginning we've had the same goal

Combine cutting edge design with precision engineering,
to bring you the No1 choice in performance accessories!

Our desire to enhance and improve on the standard bike design has driven our in house design team to develop a vast range of stylised components for your motorcycle.

When you buy direct from Powerbronze you buy quality engineered and designed accessories direct from the manufacturer. No other company can offer its customers such a direct relationship.

Because Powerbronze deal direct with our customers, Powerbronze can offer you the latest technology at amazing prices. What's more our designed and engineered products can be configured to match your exact needs. Go online today for the latest great deals.

Light Grey Tint

AIRFLOW SCREENS

All light grey airflow screens have a black fade out band with graphic as shown

TÜV
ABE
TYPE APPROVAL

AIRFLOW screens

The Airflow has an aggressive upward sweep which pushes air higher, without creating the turbulence normally associated with flip-up type screens fitted to sports bikes. It is based on race-proven designs and replaces your original screen. All screens have TUV and ABE type approval. Finishing trim is supplied with all screens. A black fade out band is applied around the base of screen with graphic where appropriate.

Standard colours: Dark Grey Tint, Light Grey Tint, Clear, Solid Black, Solid Black
For Iridium colours please see page 7

"Fitting this screen is enough to make any bike feel like a Moto GP machine thanks to its black edging profile."

It successfully keeps the windblast off the rider and has an impressive drag power reading of 29.2hp at 100 mph".

Rated number one and two!

IRIDIUM SCREENS

IRIDIUM

Powerbronze windscreens and headlight visors enhance your machine with Iridium fusion technology. Using proven hi-technology from the defence and semi-conductor industries Powerbronze has created a system of multi layer reflective coatings for motorcycles. The coatings consist of multiple layers of different chemical elements deposited onto a substrate (motorcycle windscreen) to give specific colour shift. By reflecting specific wavelengths of the visible spectrum a windscreen will appear very different when viewed from each side.

At Powerbronze we manufacture and design all our products from initial stage originations in clay through to carefully hand finished and polished units. Therefore ensuring high quality standards are achieved.

Powerbronze use only the very latest state of the art manufacturing equipment and finishing techniques to produce a superb range of windscreens and headlamp visors.

All Powerbronze screens have been subjected to extensive testing and comply with stringent German TUV and ABE type approval specifications.

The special multi layer coatings applied to Powerbronze products have been subjected to accelerated environmental testing to simulate years of outdoor use in order to ensure durability in the elements.

Iridium Yellow

Iridium Cool Blue

Iridium Red

Iridium Purple

Iridium Cool Blue

Iridium Silver

Iridium Silver

Iridium Amber

Iridium Green

Each product has unique effect by reflection of light in the visible spectrum. From the riders position the windscreen appears to be tinted, but from the front of the bike a bright shining mirror effect is visible.

With single colour effects, as the observers eye moves relative to the windscreen the colour will remain uniform with a bright shining mirror effect when viewed from the front of the motorcycle. From the riders position the windscreen appears tinted and is see through.

Iridium Blue

 Please see application list on page 12

Dark Grey Tint

Issue 107
March '04

"Virtually identical in dimensions to the GSX-Rs original screen, the Powerbronze replacement is 3.3mm thick and has little in the way of optical distortion. It performed well in the wind tunnel tests-giving the bike a power factor of 29.7hp at 100mph".

LENS SHIELDS

LENS SHIELDS

The Powerbronze range of Lens Shields is extensive and constantly expanding. Each shield is manufactured from thermoformed acrylic and is tailored to suit the individual machine. They add a touch of style while protecting your expensive headlamp lens. Safeguard your headlamp unit against damaging stone chips and other flying objects. 3M Dual Lock® fixings supplied. Only light tint, clear or yellow are for road use.

 Please see application list on page 12

For colours see page 9

SCREENS

FLIP UP

Powerbronze

TÜV

SEATS

SEATS

Powerbronze Seats are a stylish new addition for 2009 and feature original designs in colour schemes to compliment those of your bike.

We are proud to label our seats "Hand Made in England". They feature carbon fibre material finishes in colours and are embossed with the Powerbronze brand. Powerbronze Seats are made from Marine grade material, which is weather resistant, U.V. stable and easy to clean. Powerbronze Seats are completely finished ready to fit as a direct replacement to your original. We have retained the original shape and changed the density of foam where appropriate to provide better comfort.

SEAT COWLS

SEAT COWLS

Colours:
 • Black
 • Red
 • White
 • Carbon look
 • Lime green

A smooth aerodynamic racing profile requires a Powerbronze solo seat conversion. No modification is required to the bike's original bodywork. Simple and easy to fit. All cowls available in black, white or carbon-look unless otherwise stated. Most work with the seat lock.

ELIMINATORS

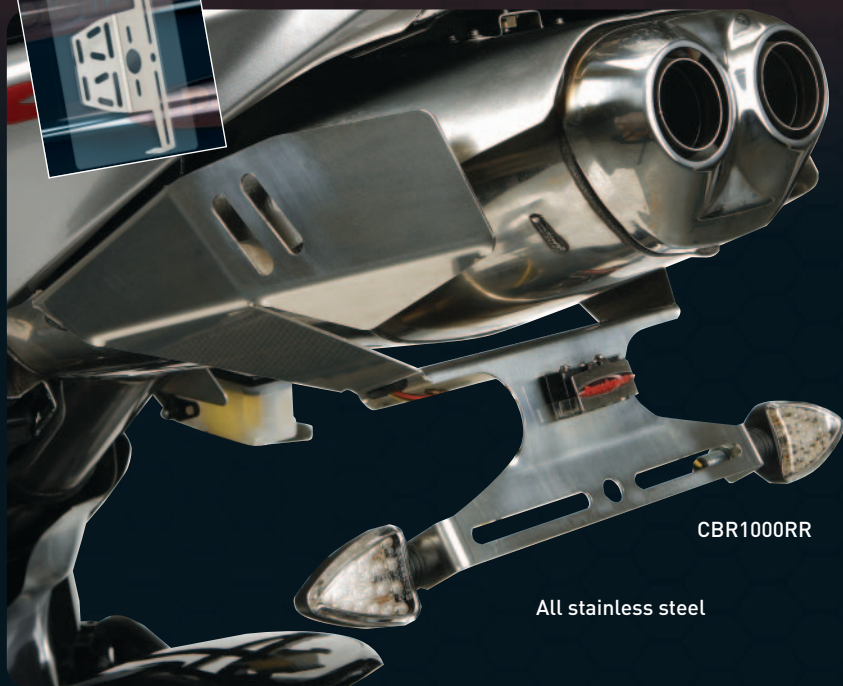

ELIMINATORS

A stylish upgrade to the rear end of your machine. The all-new Powerbronze Eliminators are manufactured from top quality stainless steel which is both rigid and rust proof, polished to a high finish for stunning looks and durability.

The tailor fit Eliminators have been developed for a number of new models. Eliminators enable you to remove the original rear mudguard. The universal Eliminator will fit many machines with minimal modification.

Provision for the fitting of mini stem indicators is also built-in whilst your original number plate light is replaced with an LED version in most cases (see below).

All Eliminators are supplied with the necessary fixings and instructions.

LED FLASH RELAY

SPECIFY MODEL WHEN ORDERING

AUXILIARY INDICATORS

All tail guards can be fitted with additional auxiliary LED indicators into the tailguard for extra safety and a great race look. Also useful for extra visibility on panniers or fairing panels.

They wire directly into your existing indicator loom and operate normally in conjunction with the standard set up.

LED FLUSH MOUNTED INDICATORS

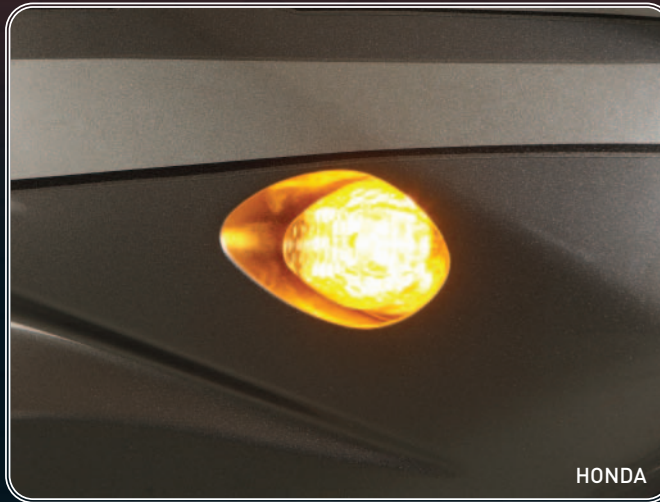

YAMAHA

SUZUKI

KAWASAKI

HONDA

Flush mounted for a great race look, Powerbronze LED indicators are super bright and come with the load resistors necessary to give the correct flash rate.

Easy to fit into the original fairing recess they operate in conjunction with the standard setup.

More aerodynamic and much less vulnerable than stem type indicators.

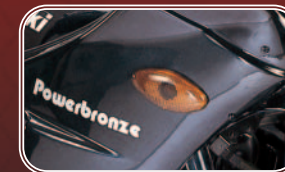

Description
 Kawasaki front flush mounted indicators
 Honda front flush mounted indicators
 Yamaha front flush mounted indicators
 Suzuki front flush mounted indicators

Large and mini flush mounted indicators allow you to modify your tail unit or fairing to give a more aerodynamic profile. They are power rated as standard indicators.

Large: length 104mm Max width 50mm

Mini: length 70mm Max width 34mm

LARGE FLUSH MOUNTED style 2

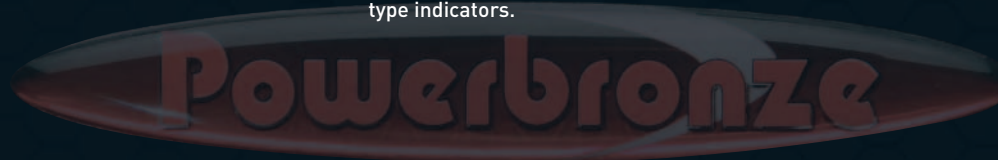

They have a foam base cover to protect the paint work

BRAKE LIGHTS

LED SHOTGUN CONVERSION KIT

This kit will allow you to upgrade any Powerbronze Shotgun Bulb Tail Guard to LED's. They are E-marked and incorporate number plate light. Clear rear lens.

AUXILIARY BRAKE LIGHT

A new option for 2008 all huggers can be fitted with an auxiliary brake light onto the rear top edge of hugger for extra safety and a great look.

They wire into your existing brake light loom and operate in conjunction with the standard set up.

SINGLE LED REAR LIGHT

Super bright tail and brake light with number plate light built into one unit. E-marked, clear lens.

SHOTGUN LIGHT BULBS

These shotgun bulb units are used in Powerbronze Tailguards. They are also ideal for special projects. E-marked and incorporating number plate light.

TAIL LIGHT LED

This LED unit has the tail and brake light in one unit. E-marked, red lens.

Twin HEADLIGHT ASSEMBLY

This neat twin-headlight assembly is quick and easy to fit to most retros and specials. Using a range of stainless steel fork clamp kits of different diameters, it comes supplied with 35w/35w halogen bulbs (total 70w) and parking bulbs (both lights operate simultaneously). The Streetfighter lights come with their own plug-in loom and aluminium support brackets. Available in chrome with optional Streetfighter screen (pictured). Available in all screen colours

(Specify bike when ordering)

REAR SWING ARM PROTECTORS

• Matching
Crash Posts
available see
page 91

Powerbronze Swing Arm Protectors are a stylish detailed part well worth the extra protection they offer.

Injection moulded from weapons grade plastic, each set of Powerbronze Swing Arm Protectors is supplied with the necessary high tensile bolts (de embrittled), washers and compression sleeves to suit each model. Designed to be used with extreme prejudice on the track, Powerbronze Swing Arm Protectors are available in a range of colours.

All Swing Arm Protector kits come complete with full fitting instructions to enable quick and hassle free fitment. All Powerbronze Swing Arm Protectors are dual purpose because they double up as paddock stand bobbins.

WEAPONS GRADE PLASTIC

CRASH POSTS

• Matching Rear Swing Arm Protectors available see page 89

Crash Posts are a stylish detailed part and well worth the extra protection they offer. CNC machined from aluminium or weapons grade plastic and hand polished where appropriate to give a mirror finish. Each crash post is supplied with all the necessary compression spacers and high tensile bolts (de-embrittled) to suit each model. Designed to be used with extreme prejudice on the track!

Specifications

Marauder is supplied with universal fixing kit containing stainless fork clamps (please specify diameter). Retaining standard handlebars and steering lock. Weight of fairing: 2kg
Lighting: H1 55w projector/H3 55w with parking bulb.
Manufactured from high impact plastic with gloss finish.

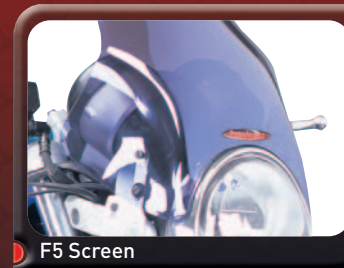

Supplied with universal fixing kit containing stainless fork clamps (please specify diameter).

The Marauder is a fork-mounted low profile nose fairing. It features our new twin headlights containing two polyelliptical quartz iodine lights and two parking bulbs. The Marauder is supplied with fixing kits for most popular machines and utilises your bikes standard mirrors and indicators. Easy to fit and stunning in appearance. Ideal for specials and retro bikes.

Powerbronze

NEW OPTION

All huggers can be fitted with an auxiliary brake light on to the rear top edge of hugger for extra safety and a great look.

They wire into your existing brake light loom and operate in conjunction with the standard set up.

This option add

REAR HUGGERS

Colours: • Black • Red • White • Lime Green • Carbon Look
- Carbon Fibre available see page 131

All models available in black and carbon look only unless otherwise indicated

REAR HUGGERS

Give the rear end of your bike a Powerbronze hugger. Each hugger comes pre-drilled with all mountings - no drilling, no cutting, no tie wraps! Made from a high impact plastic for a smooth internal finish and 'rolled' edges. All brackets supplied. Choose from either carbon-look, red, lime green, black or white. All huggers use 'Posi-Flex'; steel sleeved rubber mounting points to dampen vibration and avoid cracking. Most huggers have chain guards built into the shape where appropriate.

All huggers have TUV approval. Many of our new sport bike models have silver or gold meshed vents for extra style. (Specify mesh colour when ordering)

Other mesh colours are possible, see mesh kits on page 83

For carbon fibre see page 131

REAR HUGGERS

REAR HUGGERS

Carbon Fibre

Every Powerbronze hand crafted carbon fibre hugger is styled and designed specifically for each model of bike in the range.

They have rolled edges for quality and strength with a choice of gold or silver aluminium mesh venting.

Each hugger comes pre-drilled with all mountings: no drilling, no cutting, no tie wraps! All brackets supplied.
A Powerbronze vented hugger and chainguard compliments our front mudguard range beautifully.

CHAIN GUARDS

CHAIN GUARDS

Powerbronze chain guards are a lightweight, strong, and direct replacement for the original plastic part.

Powerbronze chain guards give the same level of protection as the original part but with the enhanced appearance of carbon fibre finish.

Carbon chain guards are compatible with Powerbronze mesh vented huggers.

FRONT MUDGUARDS

Carbon Fibre

FRONT MUDGUARDS

A new and stylish enhancement to your motorcycle from Powerbronze.

Styled with gold or silver mesh vents to compliment modern Super bikes; they look fantastic.

Powerbronze carbon fibre front mudguards are hand made in our dedicated plant. They are lacquered to give a gloss protective finish from weathering.

Powerbronze carbon parts are pre-drilled and use your bike's original fasteners in most cases, fittings are supplied where required.

All models available with gold or silver meshed vents.

Powerbronze carbon fibre frame protectors are manufactured from 3K carbon twill. They are shaped to fit snug over the exposed main frame section. Secured with 3M adhesive tape to give maximum strength. Easy to fit without modification, they are used to limit damage on expensive exposed alloy frame sections. Used by many Superbike5 racing teams.

Powerbronze carbon fibre engine covers are designed for superbike racing, primarily to comply with ACU rules. They fit over the original Engine covers to provide improved protection, secured with the original engine bolts to give maximum strength (NO MESSY ADHESIVE). Very good additional armour for road bikes, limiting damage in the event of a spill. Straight from the track, they look great too!

B-King Clutch Cover only

Complete set for each bike model includes all the main engine case covers.

Building on years of design and manufacturing experience Powerbronze have formed a new race division.

“At this level we don't accept compromise! That's why Powerbronze was our No1 choice”

Shaun Muir - Hydrex - BSB

Powerbronze race division now manufactures full carbon racing products for superbikes, from racing airflow screens, crash posts, carbon engine and frame protectors to full fairings, seat units, huggers and mudguards.

“Were looking for every advantage...
...and Powerbronze gives us that!”

Marco Nicotari - Auto Evolution - WSBK
